The "Other service activities" sector experienced a growth of **37.9%**, marking a continuous increase from the 7.1% growth seen in the third quarter of 2024. This upward trend can be attributed to several key factors, including a notable rise in the repair of computers and personal household goods, which contributed significantly to the sector's overall performance. Additionally, the growth was driven by a surge in personal services for wellness, excluding sports activities, as well as other personal service activities. Furthermore, the activities of membership organizations also played a crucial role in boosting the sector's performance. These developments highlight the expanding demand for various services, reflecting a positive growth.

Taxes on Products Quarterly Performance

The Taxes on Products contributed a total value added in real terms of **TZS 59,252 million** during the period under review. For the quarter ending in December 2024, the value added saw a growth of **1.1** percent when compared to the same quarter in 2023. This positive growth indicates a steady increase in the contribution of taxes on products to the economy, reflecting improved performance in this sector over the past year.

At current prices, the value added amounted to **TZS 184,510 million**, reflecting a strong year-on-year growth of **59.1** percent from the quarter ending in December 2023. This notable increase underscores the sector's solid performance and significant contribution to the economy over the past year. In addition, when compared to the quarter ending in September 2024, the value added saw a growth rate of negative 7.7% on a quarter-on-quarter basis.

Introduction

The compilation of national accounts statistics is a dynamic process, and therefore needs to adapt to reflect a variety of measures and indicators consistent with developments and structural changes in the economy over a period. It is therefore expected that revisions and updates are made to the historical series on a quarterly or annual basis as new data sources are brought into the model and as various benchmarks and assumptions are validated and updated.

This quarterly report is the 39th published by the Office of the Chief Government Statistician of the quarterly series of GDP estimates at constant 2015 prices. This report is an ongoing publication and can also be downloaded from our website www.ocgs.go.tz.
