

Office of the Chief Government Statistician

Gross Domestic Product

June 2017 quarter

05th October 2017

Overview

Gross Domestic Product positively performed by 8.2 percent in June quarter following the positive performances of 6.6 percent, 4.2 percent and 9.1 in the March 2017, December and September 2016 quarters respectively. In June 2017, the increase in the y-o-y growth rate was a result of a mix performance by the industries.

Gross Domestic Product for the **June 2017 quarter** at constant 2007 prices was 324,790 TZS million recording an increase of 8.2 percent over the June 2016 quarter. This follows a revised y-o-y growth rate of 6.6 percent in the March 2017 quarter.

Chart 1: Total GDP at constant 2007 prices & Growth in quarterly GDP (at 2007 prices)

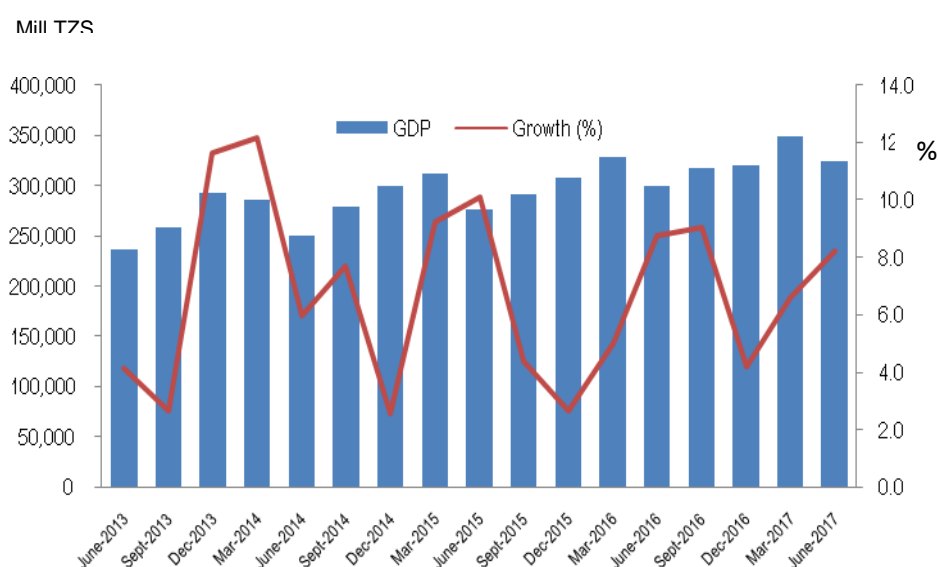

Chart 1 shows the total value added at constant 2007 prices and the quarterly y-o-y GDP growth rates from June 2013 quarter to June 2017 quarter. As shown by the chart, quarterly value added was the highest in March 2017 and the lowest was on June quarter 2013. The June quarter 2013 marked the decline indicating the slowdown in overall economic performance in the period under review.

Chart 2: Percentage point contributions to change in real GDP, by industry June 2017 Quarter

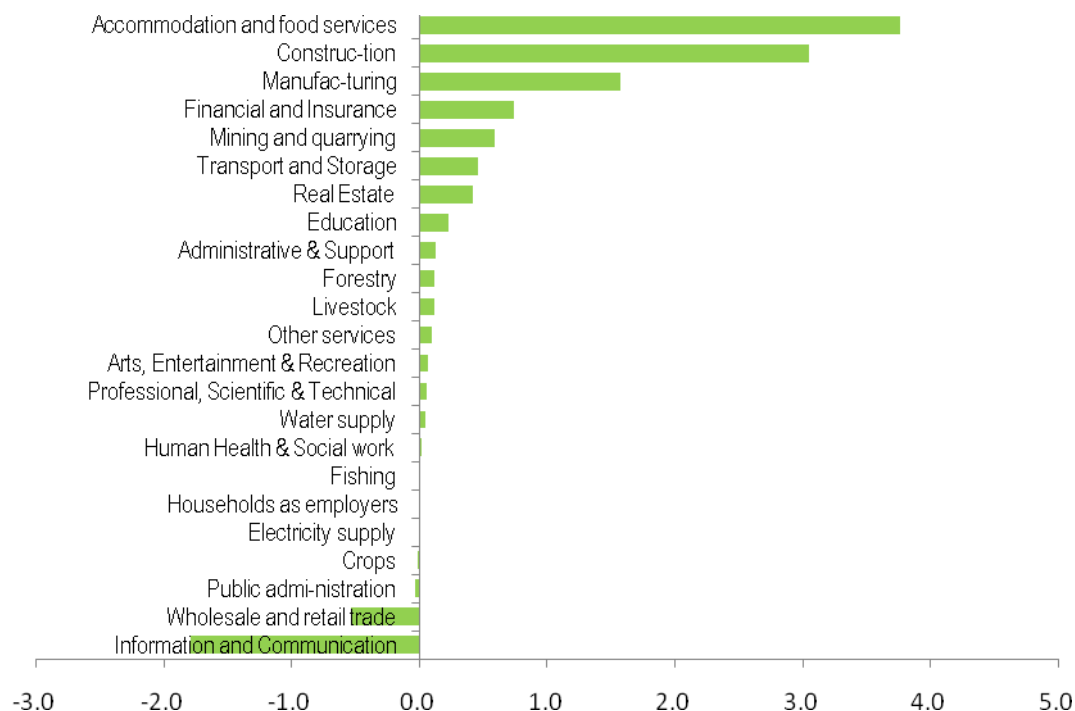

Chart 2 shows the percentage-point contribution of each industry to the overall growth of 8.2 percent in the June 2017 quarter. The main contributors were Accommodation and food services (3.8 percentage points), Construction (3.0 percentage points), Manufacturing (1.6 percentage points), Financial and Insurance (0.7 percentage points), Mining and quarrying (0.6 percentage points) and Transport and Storage (0.5 percentage points). Other contributors to growth were Real Estate (0.4 percentage points), Education (0.2 percentage points), Administrative and support, Forestry, Livestock, other services, Arts, Entertainment & Recreation and Professional, Scientific & Technical were all have 0.1 percentage points.

Construction once again recorded another positive growth when it went up by 3.0 percent in June 2017 compared to June 2016 making it the second consecutive quarter of positive growth for the industry. Transport also recorded positive performance following a small positive performance of growths in the previous quarter.

The lowest negative performance observed in June quarter was experienced in Information and Communication which accounts for negative 1.8 percent point contribution. Wholesale and retail recorded a negative growth which marked the second from lowest.

GDP levels (Nominal or Current Prices):

Total GDP for the June 2017 quarter in nominal terms stood at 671,200 TZS million in nominal terms, climbing 12.1 percentage compared to June 2016. Construction was 26.6 percent in value added at current prices with a contribution of 3.1 percentage-points followed by Fishing activities, Public administration and financial and insurance with all have 1.1 percentage-points contribution.

Chart 3: Composition of GDP, June 2017 Quarter

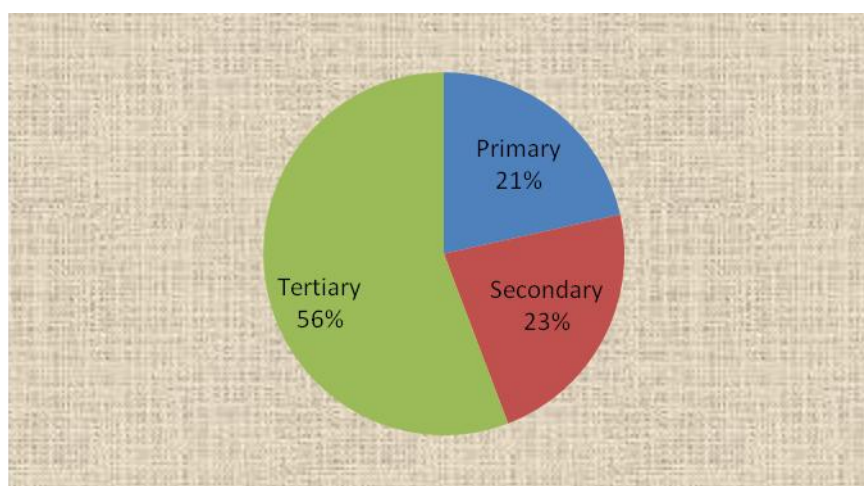

Chart 3 shows the composition of GDP at current prices for the June 2017 quarter, categorized into the three main broad sectors of the economy, Primary Sector, Secondary Sector and Tertiary Sector (Services Sector).

Tertiary sector remains the largest comprising a total share of 56 percent of aggregate GDP, increasing by 3.5 percent compared to its share in the similar quarter 2016. Secondary sector recorded a share of 23 percent, rose its share by 10.6 percent compared to June 2016. Primary sector recorded a total share of 21 percent, decreased by 0.8 percent compared to June 2016 quarter.

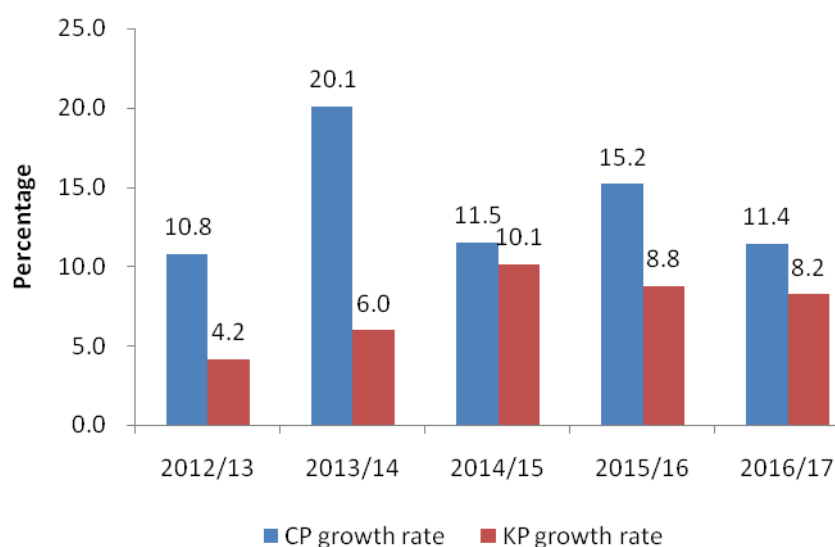

Twelve Months Review (Sept 2016—June 2017):

GDP for the 12 months period ended June 2017 at current prices (nominal terms) stood at 2,734,487 TZS million, an increase of 12.1 percent compared to the 12 months period ended June 2016.

At constant 2007 prices (real terms), GDP stood at 1,313,050 TZS million recording an increase of 7.0 percent compared to the 12 months period ended June 2016. This increase of 7.0 percent in the year ended June 2017 was evident of the favourable economic performance attributed by industries such as Accommodation and food services (contributed 2.4 percentage points), Construction (contributed 1.4 percentage points), Manufacturing (contributed 0.9 percentage points), Public administration (contributed 0.5 percentage points), Mining and quarrying, (contributed 0.5 percentage points), Real Estate (contributed 0.4 percentage points), Transport and Storage (contributed 0.3 percentage points) and among others.

Chart 4 shows the growth rates for the 12 months period ending June for the years 2012/13 to 2016/17. As shown by the chart, economic activities in the 12 months period June 12/13 to June 16/17 have been steadily showing favorable performances for the 12 months period ending June 2017.

Chart 4: Percentage change in Current and Constant Prices for the year ended June (2012/13—2016/17)

As indicated by the chart above there was consecutive positive growth at 2007 constant prices since period ending June 2012/13 to the same period of 2016/17. The pick have experience on 2013/14 compared to other years. This contribute to high volume of number of tourist arrived in Zanzibar.

Individual Industry Quarterly Performance

CROPS	GDP June 2016 Quarter	GDP Mar 2017 Quarter	GDP June 2017 Quarter	% change from Mar 2017 quar- ter (q-o-q)	% change from June 2016 quar- ter (y-o-y)

Contribution to aggregate GDP: <i>Percent</i>	0.5	0.9	0.6		

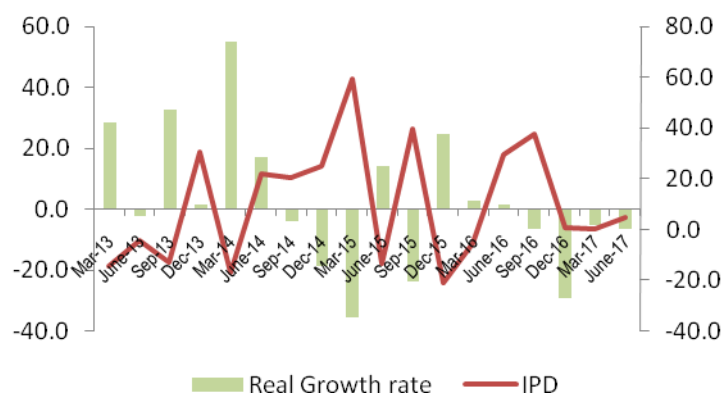

At constant 2007 prices, Other Services industry amounted 1,945 TZS million value added for June 2017 quarter. This translated as 18.3 higher than the similar 2016 quarter whereas, March 2017 quarter marked a negative performance of 39.9 percent on q-o-q basis. Current prices rehead to 2,508 TZS million for June 2017 quarter which reflect the positive performance of 22.0 on y-o-y basis. Compared to March 2017 quarter the result has shown the negative performance that marked 4,158 TZS million which accounts for 39.7 percent (q-o-q). The June quarter presented a 0.6 percent of share to total GDP.

TAXES ON PRODUCTS	GDP June 2016 Quarter	GDP Mar 2017 Quarter	GDP June 2017 Quarter	% change from Mar 2017 quar- ter (q-o-q)	% change from June 2016 quar- ter (y-o-y)
Value Added (current prices) TZS (Millions)	71,405	80,134	74,081	-7.6	3.7
Value added (constant 2007 prices) TZS (Millions)	28,965	42,578	27,124	-36.3	-6.4
Contribution to aggregate (y-o-y) real growth rate: <i>percentage points</i>	31.6	25.9	3.7	Chart 27: Percentage change in Other Services; Mar 2013– June 2017	
Contribution to aggregate GDP: <i>percent</i>	9.7	12.2	8.4		

The Taxes on Products generated a total value added in real terms of 27,124 TZS million in the period under review. The value added for June 2017 quarter declined by 6.4 percent lower than the value added for the same quarter of previous year. Compared to the March 2017 quarter, the activity again decreased by 36.3 percent. The industry contributed a positive 3.7 percentage points to overall GDP growth.

The current prices registered a positive performance of 3.7 percent from June quarter 2016 (q-o-q). When compared to March 2016 quarter the value added decreased by negative 7.6 percent on y-o-y basis. The June 2017 quarter made a share of 8.4 percent.

Introduction

The compilation of national accounts statistics is a dynamic process, and therefore needs to adapt to reflect a variety of measures and indicators consistent with developments and structural changes in the economy over a period of time. It is therefore expected that revisions and updates are made to the historical series on a quarterly or annual basis as new data sources are brought into the model and as various benchmarks and assumptions are validated and updated.

This quarterly report is the Third published by the Office of the Chief Government Statistician of the new quarterly series of GDP estimates at constant 2007 prices. This report is an ongoing publication and can also be downloaded from our website www.ocgs.go.tz.

Office of the Chief Government Statistician

OCGS VISION

"to become a centre of excellence for statistical production and promoting a culture of evidence based policy and decision making"
