

Census of Industrial Production 2012 Report

Office of Chief Government Statistician
Zanzibar
March, 2014

FOREWORD

The 2012 Census of Industrial Production (CIP) for Zanzibar, Tanzania is the fifth to be conducted since the establishment of the Zanzibar Statistical Office. Previous industrial censuses were conducted in years 1978, 1989, 2001 and 2008.

The purpose of this report is to provide a comprehensive data base for industrial planning, development and policy formulation. It is hoped that this report will be of great use for those who are interested in the study and development of Zanzibar industrial sector.

The tables presented in this report were based on the information collected through the census's questionnaire. The census covered establishment which operated during the year 2012 from January to December and engaged one or more persons in at least one of the mining and quarrying; and manufacturing activities. Although generation and distribution of electrical energy is part of industrial activities but for the purpose of this census, have been excluded due to monopoly nature of ownership.

Indicators have been presented in accordance with the International Standard Industrial Classification of All Economic Activities, Rev, 4 (ISIC Rev. 4). Some important statistics are given by region, size of establishment and ownership.

The contents of this report have been guided by the need of various stakeholders including Ministries, Departments and Agencies, private institutions as well as inquires initiated by individual persons.

The Office of Chief Government Statistician aims to improve the content and accuracy of industrial statistics in our country. In this respect we welcome suggestions and recommendations from all users of industrial census data and related statistics. These should be channelled to:

.....
Mr. Mohamed H. Rajab,
Chief Government Statistician,
Office of Chief Government Statistician,
Zanzibar.

ACKNOWLEDGEMENTS

The 2012 Census of Industrial Production was prepared by the Office of the Chief Government Statistician (OCGS) with supports from the various institutions and individuals.

We wish to acknowledge with gratitude the service rendered by all person in the completion of this project. Special mention is made to members of the Industrial Statistics Unit of the Office of the Chief Government Statistician, Zanzibar who have handled the project so efficiently from the beginning up to its end. The census executive committee which was comprised of Mr Mohammed H. Rajab, Chief Government Statistician; Mr Abdul R. Abeid Ag Director of Economic Statistics; Mr Haroub A. Masoud, Head of the Office of Chief Government Statistician Pemba, and Mr Maulid S. Kombo, Manager for Production Statistics. Not to forget the technical team members who worked tirelessly for this project Ms. Halima M. Suleiman, Ms. Fahima M. Issa, Ms. Mwanangaza M. Hafidh, Ms. Talhiyat Zahor Salum and Mr. Abdalla Othman.

Heartfelt appreciations are extended to the owners of the establishments who devoted their time to fill in the questionnaires and exchanged experiences with field enumerators and supervisors.

Appreciation are also extended to people who availed comments on the draft report, special appreciation go to Mashavu Kh. Omar for the commendable editorial work.

Special thanks go to the Revolutionary Government of Zanzibar and UNDP through TSMP project for their financial support which enabled the project to complete.

We would like to express our appreciation and thanks to the UNIDO for providing equipment that were used during the data processing, table production and other activities.

Mr. Abdul R. Abeid
Acting Head of Economic Section
Department of Economic Statistics
Office of Chief Government Statistician
July 2013

CONCEPTS AND DEFINITIONS USED IN QUESTIONNAIRE

Concepts and definitions are according to the Recommendations of the 1993 System of National Account was adopted by the United Nations Statistical Commission during its 27th session in 1993 as the international standard for compilation of national accounts statistics and for the international reporting of comparable national accounting data.

- i) **The Statistical Unit:** Ideally the statistical unit as recommended by the United Nations Statistical Office for industrial enquiries is the establishment which is defined as a unit of production engaged in a single kind of activity under a single ownership at a single location. In practice difficulties arose in applying this definition to some enterprises hence the concept of reporting unit was adopted. The reporting unit was the smallest unit which could provide the information required by the census. With the exception of the following cases, the reporting unit and the establishment are identical:
 - A unit, though under single ownership and carrying out a single activity, may operate at different locations but maintain consolidated accounts which do not readily yield data on separate locations. This occurs in some larger industrial concerns and also in the production of electricity.
 - A number of manufacturing units engaged in two or more manufacturing activities. Where possible a completed questionnaire was obtained in respect of each activity otherwise a combined return for all activities was accepted.
- ii) **Classification of Products:** Codes for Principal Products Rev.2 (CPC) were post coded and entered directly onto questionnaires after all questionnaires received at the office and a team of staff were recruited and assigned the activity of post coded. A five– digit level of CPC Rev2 was applied as a product code
- iii) **Gross Output:** Gross output of industries covers the value in the market of goods and services produced including work in progress and products for own use. Value of goods sold is adjusted by the change in stocks of finished goods and work in progress.

- iv) **Intermediate Consumption:** Intermediate consumption of industries covers non-durable goods and services used up in production, including repairs and maintenance of the capital stock, research and direct outlays on financing of capital formation such as transfer costs involved in purchases of land and intangible assets. The consumption of materials and supplies is the total cost of purchases adjusted for change in stocks of raw materials.
- v) **Value of stocks:** This item comprise the value of all materials and supplies, fuels, finished and semi-finished products and goods for resale, held by, or under the control of, the establishment (at the establishment itself or in ancillary or other warehouses).
- vi) **Value Added:** The value added is equal to gross output less the value of the intermediate consumption. The sum of the value added of all domestic producers gives the Gross Domestic Product (GDP). Value added may be at factor cost, basic prices or at producers' prices depending on the treatment of taxes on production and subsidies. Value added at basic prices is obtained as the difference between gross output and intermediate consumption whereby output is valued at basic prices and intermediate consumption at purchasers' prices.
- vii) **Basic price:** The basic price is the amount receivable by the producer exclusive of taxes on products and inclusive of subsidies on products.
- viii) **Purchasers' price:** The purchasers' price is the amount payable by the purchaser exclusive of deductible taxes on products (e.g. deductible value added tax).
- ix) **Compensation of Employees:** Compensation of employees comprises all payments by producers of wages and salaries to their employees, in kind as well as in cash and of contributions to social security and to private pension, casualty insurance and similar schemes.
- x) **Gross Operating Surplus:** Gross operating surplus is defined as the excess of value added over the cost of employees' compensation.
- xi) **Establishment:** An establishment is defined as an economic unit that engages, under a single legal entity, in one, or predominantly one, kind of activity at a

single physical location - for example, a mine, factory or workshop.

- xii) **Partnership:** An establishment whereby two or more individuals put their capital together set up a business and shares the profits
- xiii) **Public:** An establishment owned by the Government
- xiv) **Parastatal:** Establishments are those belonging to companies, in which the Government has a controlling interest.
- xv) **Co-operatives:** are profit-making establishments whose profits are shared amongst its members.
- xvi) **Private company:** is a private business entity where the shares are held privately and with unlimited liabilities.
- xvii) **Private limited company:** is a private business entity where the shares are held privately and with limited liabilities
- xviii) **Number of persons engaged:** This is the total number of persons who work in or for the establishment. It includes working proprietors and partners, unpaid workers, managerial and professional staff, operatives and other employees.
- xix) **Working proprietors and partners** are all individual proprietors and partners who are actively engaged in the work of the establishment without pay.
- xx) **Unpaid workers:** include members of the household of any of the proprietors as well as other workers who work in the establishment without regular pay for at least one third of the normal working time of the establishment.
- xxi) **Employees (operatives and other employees):** Persons who during the reference period performed some work for an agreed amount of pay in cash or in kind are persons who work in or for the establishment and receive pay, in cash or in kind. It includes operatives, and all persons employed on permanent, temporary or on casual terms.
- xxii) **Operatives:** are persons who are directly engaged in the production or related activities of the establishment and who receive pay, in cash or in kind, at regular intervals. Examples are persons engaged in fabricating, processing or assembling,

fitters, packers, repairmen, record-keeping personnel and inspectors. Please differentiate between skilled and non-skilled operatives.

- xxiii) **Payment in kind:** Payment in kind is the net cost to the employer in providing to the employee food, drink, car facilities, fuel allowance, and other goods and services free of charge or at reduced prices.
- xxiv) **Net value-added tax paid:** The net value-added tax is calculated as the difference between the value-added tax invoiced to clients and the deductible value-added tax on purchases of raw materials, intermediate products and the like.
- xxv) **Work in progress:** This item refers to the value of all materials which have been partially processed but which are not usually sold without further processing.
- xxvi) **Labour costs:** Wages salaries benefits in kind and employers contribution to social security schemes.
- xxvii) **Inputs or purchases:** Value of raw, packing and chemical materials consumed cost of re-sales, services received and other cost.
- xxviii) **Output:** Quantity of value of principal products manufactured, sales and services rendered to other forms value of capital goods constructed by the establishment for own use and the value of subsidies received.
- xxix) **Wages:** All cash payments made by the employer to the operatives in connection with the work done. It includes bonuses, overtime, cost of living allowances, commissions and payments made during vacation, sick leave, maternity or casual leave.
- xxx) **Salaries:** All cash payments paid to other employees, commissions and other allowances in connection with the work done. It also includes bonuses and overtime payments.

Gross value added: Gross value added is equal to gross output less the value of the intermediate consumption/production cost. The sum of the value added of all domestic producers gives the contribution to the Gross Domestic Product (GDP). Gross value added may be at factor cost, basic prices or at producers' prices depending on the treatment of taxes

on production and subsidies. Value added at basic prices is obtained as the difference between gross output and intermediate consumption whereby output is valued at basic and intermediate consumption at purchasers' prices.

- xxxi) **Depreciation:** Represent the estimated allowance for wear and tear of fixed assets during the respective accounting year. Throughout this report, the unit of value is the Tanzania shilling.
- xxxii) **Expenditure on fixed assets:** This is the sum of the cost of new or old capital equipment acquired and value of assets produced on own account construction. Improvements and major alterations to existing fixed assets are also included.
- xxxiii) **Gross additions to fixed assets:** This is the expenditure on fixed assets (additions) less total disposals of fixed assets.
- xxxiv) **Public:** All establishments owned by government and all companies in which government has 50 percent or more shares capital.
- xxxv) **Private:** All establishments owned by private, all companies in which government has less than 50 percent shares capital, companies under Regional or District Cooperative Union, companies under Cooperative Societies and companies not stated above.
- xxxvi) **Inventory of Working Capital:** Value of stock of materials and stores, finished products and work in progress at the beginning and at the end of the accounting year.
- xxxvii) **Small industries:** the following descriptions were used:
 - 1 – 2 Establishments with 1 to 2 persons engaged
 - 3 – 4 Establishments with 3 to 4 persons engaged
 - 5 – 6 Establishments with 5 to 6 persons engaged
 - 7 – 9 Establishments with 7 to 9 persons engaged
- xxxviii) **Large industries:** the following descriptions were used:
 - 10 – 19 Establishments with 10 to 19 persons engaged

- 20 – 49 Establishments with 20 to 49 persons engaged
- 50 – 99 Establishments with 50 to 99 persons engaged
- 100 – 499 Establishments with 100 to 499 persons engaged

EXECUTIVE SUMMARY

Overview

Zanzibar consists of two main islands, Unguja and Pemba, and about 50 other small islets. Unguja and Pemba are 50 km apart and separated by the Pemba channel.

Geography and Demography

Location: 40kms off Mainland coast of East Africa, latitude 4⁰ and 6⁰ South longitude 39.5 and 40⁰ east.

Surface area: Zanzibar 2,654km², Unguja 1,666km², Pemba 988km².

Population: 2012 census 1,303,569. Population growth rate is 2.8 percent.

The contribution of industrial sector share to total GDP in 2011 was 12.0 percent compared to 12.6 in the previous year, 2010. The world economic history shows that the share of the manufacturing sector increases as economies grow. It is perhaps for this reason that the size of the manufacturing sector is often thought to be one of the indicators of the level of economic development of a country. With economic progress however, the share of the manufacturing sector is expected to increase beyond its current level.

In order to promote growth in the industrial sector, it is essential that more information becomes available with respect to the present status of industry, its structure, its real contribution to GDP, etc.

The industrial sector in Zanzibar is relatively small and according to national accounts estimates in 2012 represented around 12.0 percent of GDP, whereby 1.0 percent mining, 3.9% manufacturing, 1.5% electricity and 5.6% construction. Most of the manufacturing establishments are still small and few large size establishments operate mainly in the production of soft drink and food processing.

In 2012, the number of large industrial establishments operating in Zanzibar was 235. The highest concentration of these establishments was in Mjini Magharibi 111 followed by Kusini Pemba 53, Kaskazini Unguja 25, Kaskazini Pemba 25 and Kusini Unguja 21. 223 establishments which are about 95 percent were wholly owned by nationals, while 10 establishments about 4.3 percent were reported to be wholly foreign owned, and the remaining 2 establishments about 0.7 percent were under joint venture ownership.

For the total industry sector (large) stood at 62 percent during 2012. Out of the total 235 industrial establishments in 2012 the majority (216 or 92 percent) were in Manufacturing Sector while 19 (8%) were in the Mining Sector.

The total number of persons engaged (large industries) was 4,280 of which 3,943 (92 percent) were in Manufacturing 337 (8%) were in Mining Sector. Mjini/Magharibi region employed the largest number of workers (2,211 persons 51.7 percent).

Total number of persons employed was 2,611 workers of which 2,162 were male and 2,426 or 93 percent were in the Manufacturing Sector, while 185 or 7% were in Mining Sector.

The 223 national owned establishments engaged a total of 3,766 (88 percent) workers compared to 294 (7%) in foreign owned establishments. The jointly owned establishments had 220 (5.0%) persons.

A total of Tshs. 5,267 million was paid by the industrial establishment as compensation to employees.

The total gross output (larger industries) or total value of goods and services produced by the industrial establishments was 70,680 million. Sales of goods amounted to Tshs. 248,539 million which 2% or Tsh.3, 687 million were exports mainly from food products.

The total cost of production i.e intermediate consumption was Tshs. 39,099 million of which 14,836 million or 38.0 percent represented the cost of raw materials imported.

The total value added was Tshs. 31,581 million. The composition of value added by industry shows that, Manufacturing had the largest contribution of Tshs. 30,238 or 96 percent of the total value added.

Average capacity utilization rate

Total number of establishments in all industries operating in Zanzibar 2012 (LARGE AND SMALL) was 2201. The number of person engaged was 10,427.

The total gross output (LARGE AND SMALL) or total value of goods and services produced by industrial establishments was Tshs. 145,416 million.

The total Intermediate Consumption or cost of production was Tshs. 73,456 million.

The total Value Added was Tshs. 71,960 million.

The compensation of Employees was Tshs. 10,176 million.

The census has provided a wealth of information on the different types of industrial activities in Zanzibar.

CHAPTER ONE

Introduction

1.1 Background

This statistical report shows the performance of industrial sector based on 2012 Census of Industrial Production that was undertaken by the Office of the Chief Government Statistician (OCGS). The 2012 Census of Industrial Production covered industries that operated in the calendar year 2012. The statistical method and procedures used in the census followed the international recommendations and shall be applied in the future to similar statistical operations. The census was undertaken for small, medium and large establishments with size 1-4, 5-9 and 10+ persons engaged. This report gives descriptions of the methods and concepts applied in the undertaking of census as well as the results obtained thereof. The statistics reflect the contribution of the industrial sector of the economy. The frame of the census was taken from 2012 Central Register of Establishment (CRE).

The 2012 Census of Industrial Production (CIP) for Zanzibar, Tanzania is the fifth to be conducted since the establishment of the Zanzibar Statistical Office. Previous industrial censuses were conducted in 1978, 1989, 2001 and 2008. The 2012 census of industrial production was funded by the United Nations Development Programme (UNDP) and Revolutionary Government of Zanzibar (RGOZ) and received some technical support from United Nations Industrial Development Organization (UNIDO).

1.2 Legal Authority

The Census of Industrial Production was conducted under the Authority of the Statistical Act No. 9 of 2007. Under this act, the Office of Chief Government Statistician is empowered to collect statistics from various fields including industrial statistics.

1.3 Main Objective

The census aimed at producing basic industrial statistics according to UN International recommendation for industrial statistics. The overall objective of the 2012 CIP is to generalize relevant, reliable and timely industrial sector data; they are one of the major inputs towards measuring the achievement of Zanzibar Strategy for Growth and Poverty Reduction (ZSGPR as popular known in its Swahili acronym, MKUZA). Information obtained from this

survey will provide bench mark figures for other subsequent survey and for planning policy, formulation and decision making purposes.

The census was also intended to:-

- i. Collect statistics on the operating characteristics and structure of the industrial establishment of the country.
- ii. Assess and estimate the contribution of the sector to the overall economy.
- iii. Obtain data for computing National Account estimates and
- iv. Obtain data for contribution of input – output tables

1.4 General Objective

The census aimed at providing information on the economic characteristics of Zanzibar industrial sector to management policy makers, researchers, academia and the private sector among other users in planning, policy formulation or review and monitoring and evaluation of implementation of the adopted government industrial policies, programmes and strategies aimed at improving the sector.

1.4.1 Specific Objectives

- i. To assess the status of the industrial sector performance in the country in 2012.
- ii. To identify conditions that affect firm level productivity and competitiveness.
- iii. To secure inputs for use by the government and other organs in developing or review policies programmes and strategies that support sector productivity growth.
- iv. To provide private sector with facts to support dialogue with the government and other development partners, so as to enhance public - private partnership, and
- v. To update the existing data at the level of industrial establishments.

CHAPTER TWO

Methodology

2.1 Introduction

This chapter describes and discusses the schedules of activities undertaken in conducting the 2012 Census of Industrial Production. Broadly it covers organization of the project survey methods and techniques, data collection, processing and organization of the report.

2.2 Reference period

The twelve months from January to December of 2012 calendar year was used as a reference period. Those establishments that could not supply data according to calendar year due to allocation problem, they were advised to supply the data according to the financial years that covered longer part of the reference calendar year.

2.3 Establishment Classifications

Establishments were classified into industries on the basis of major activity in conformity with the International Standard Industrial Classification (ISIC) Revision 4. Each industry is basically defined in terms of its principal products or services these being similar in nature or commodity associated in the production.

More over in order to ensure confidentiality of information at individual establishment level, data have been classified in 18 and 22 main industrial group of ISIC Rev.4.

2.4 Unit of Inquiry

The unit of inquiry was an establishment which defined as an economic unit which engages under a single ownership or control in one or predominantly one kind of economic activity at a single physical location i.e. an individual firm, mine, factory or workshop¹. However for certain firms which could not furnish separate data on an establishment basis, the enterprises was used as the unit of enquiry. It should be noted that due to record keeping practices of some firms it had not been possible in every case to strictly follow the definition of an

¹UNIDO Industrial Statistics, Guidelines and Methodology – 2010.

establishment as stated above. Therefore in a few cases, the restrictions especially on location were taken into account.

2.5 Scope and Coverage of the Census

The census covered all industrial establishments with one or more workers operated in calendar year 2012. The census covered about 2201 establishments.

According to the UN International Recommendations the industrial sector is comprised of establishments engaged in “mining and quarrying” (ISIC Rev 4, Section B), “manufacturing” (ISIC Rev 4, Section C), “electric power generation transmission and distribution” (ISIC Rev 4, Section D) and “water collection, treatment and supply” (ISIC Rev 4, Section E). However, the 2012 CIP covered Section B and Section C only; this was due to the fact that section D and section E have monopoly nature of ownership. These two major activities are government owned with single entity of operation.

Manufacturing according to international recommendation is defined as the physical or chemical transformation of materials, substances or components into new products whether the work is performed by power driven machines or by hand whether it is done in a factory or in the workers home and whether the products are sold at whole sale or retail prices². Mining and quarrying includes the extraction of minerals occurring naturally as solids, liquids or gases. Extraction can be achieved by different methods such as underground or surface mining, well operations, seabed mining etc³. As far as Zanzibar is concerned, this sector comprises of quarrying only.

2.6 The Questionnaire

The questionnaire was designed according to the International Recommendations for Industrial Statistics of the United Nations and took into consideration the requirements of the stakeholders. The information collected satisfies the needs of National Account and are considered to be useful to the government, researchers and the business community. (See Annex 1). The following was the information collected through the questionnaire.

UNIDO Industrial Statistics, Guidelines and Methodology – 2010.
IBID

- 2.6.1. General information:** Name address telephone principal activity and type of ownership etc.
- 2.6.2. Employment:** Persons engaged refers to average number of employees (operatives and other employees) working proprietors and unpaid family workers.
- 2.6.3. Labour costs:** Wages salaries benefits in kind and employers contribution to social security schemes.
- 2.6.4. Inputs / Purchases:** Value of raw packing and chemical materials consumed cost of re-sales, services received and other cost.
- 2.6.5. Output:** Quantity of value of principal products manufactured, sales and services rendered to other forms value of capital goods constructed by the establishment for own use and the value of subsidies received.
- 2.6.6. Inventory of working capital:** Value of stock of materials and stores, finished products and work in progress at the beginning and at the end of the accounting year.
- 2.6.7. Expenditure on fixed assets and depreciation:** Capital expenditure on land building and structures machinery/equipment vehicles and other fixed assets during the accounting year. Depreciation and disposals made on the respective fixed assets.

2.7 Response Rate

A total of 235 questionnaires of large establishments returns were received being 100 percent of all questionnaires distributed. The response rate was calculated based on all questionnaires completed and returned. But excluded those entire establishments that could not be located or closed (14 establishments were found to be closed).

2.8 Data collection

Data collection was undertaken by a well trained team of 35 enumerators under the supervision of 6 supervisors.

Field work started in March 2013 and was completed by the end of April 2013. The field staffs were recruited from their respective areas. They visited the establishment and worked closely with the responsible officer and assisted in filling in the questionnaire. Respondents were asked to provide the data from their accounting records for the calendar year 2012.

2.9 Data processing

Enumerators/Respondents returned completed questionnaire to OCGS, Zanzibar. They were edited and post coded accordingly.

The CSPro software was used for data entry systems, after which the data were transferred to Microsoft Access for (data cleaning) generation of tables. The cleaned dataset was then used to generate the preliminary tables as per tabulation plan.

2.10 Organization of the report

The report presents the industrial statistics according to the UN recommendations (2008). The tables are grouped separately at end of the report and refer to establishments with size, 1-4, 5-9 and 10+ workers.

In total, there were 2,201 such establishments which were in operation during the reference year 2012. The report also present the main findings relating to quantitative information collected through the survey. Tables referring to such information are major findings. The tables therefore refer to the respondents only as indicated there in.

2.11 Limitations of the Presented Statistics

The census contents and results have taken into account the needs of different users. However the users are here by cautioned that the census had following limitations.

- i. The census was conducted according to the International Recommendation for industrial statistics. The tendency among establishments to hide information relating mainly to outputs and to over- report on inputs due to the belief that information supplied would reach Revenue Authorities. The regular conduct of such census would help in dissipating this fear and at the same time, improve the quality and reliability of the supplied information.
- ii. Record keeping also was a challenge to many establishments especially those with less than ten (10) persons engaged.

- iii. Many establishments could not provide detailed information for certain items such as:
- a) Purchase of raw materials and sales from own production by main product.
 - b) Consumption of electricity water and fuels separately.
 - c) Value of stock as values of fixed asset by type
 - d) Level of stocks and assets. These and other missing data had to be estimated.
 - e) A number of establishments do not have book of accounts.
 - f) The report includes table on sales and purchases by product category. These should however be used with caution since some establishments did not report such details.
 - g) It was found that a few returned questionnaires still had certain inconsistencies which stem from insufficient understanding of the terms and concepts applied.

The above limitation; however have no serious effect on the overall quality and reliability of the census results. Statistics presented in this report reflect the current status and structure of small, medium and large establishment in Zanzibar Industrial Sector. The Government business community and other users can make good use of these results, which constitute the only available information based on International Recommendations for Industrial Statistics.

CHAPTER THREE

Major Findings

3.1 Introduction:

The analysis of the 2012 Zanzibar Census of Industrial Production (CIP) considered the confidentiality aspect as required by section 20 of the Statistics Act No 9 of 2007.

Referring to above, some information from individual establishment level have been grouped together by more than one group.

3.2 Findings

The 2012 CIP was done by using all establishments one or more persons engaged which operated in 2012. The analysis undertaken separately for establishments with 1 – 9 persons engaged and those with 10+ persons engaged.

3.2.1 Large Industries (Establishments that Engage 10+ Persons)

Establishments that operated in Zanzibar in 2012 with 10+ persons engaged were 235, whereby 19 of them equivalent to 8 percent were in mining and quarrying and 216 about 92 percent were in manufacturing.

Ownership:

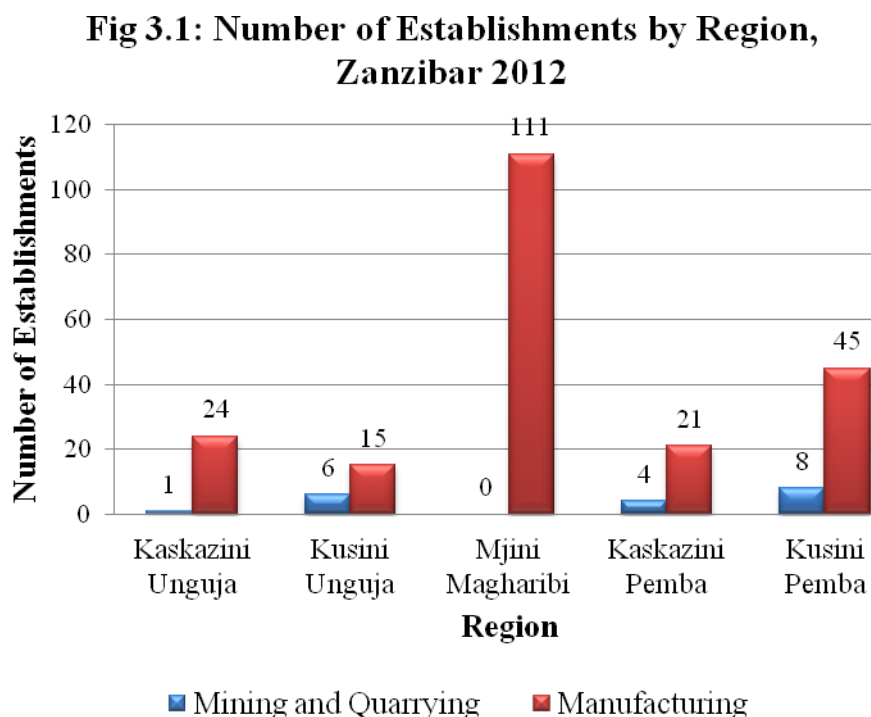

Most if the establishments in 2012 were owned by individual proprietorship, they comprised about 119 establishments with 51 percent (9 from mining and 110 from manufacturing). Other form of ownership which is significant is corporative with 88 establishments accounting to 37 percent.

Persons Engaged:

The industrial sector in Zanzibar is mainly small and medium enterprises (SME). The results from 2012 CIP revealed that about 76 percent of the establishments that operated in Zanzibar in 2012 have 10 – 19 persons engaged, while those which engaged 100 + persons are only 2 establishments.

Regional Distribution of the Establishments:

Regional distribution of industrial establishments is not equal among regions. The concentration of establishments is illustrated in figure 3.1 below. The highest concentration is in Mjini Magharibi and the lowest is Kusini Unguja region.

Concentration of manufacturing establishments was in Mjini Magharibi region while there is no mining and quarrying that operated in the region in 2012. High concentration of quarrying establishment was found in Kusini Pemba region with 42 percent.

Nationality of Owners of Establishments:

The foreign direct investments in the industrial sector is very marginal, it needs more efforts in-order to boost the Zanzibar economy. The results from the 2012 CIP revealed that most of the industries, about 95 percent (223 establishments) that engage 10+ persons were owned by Nationals compared to 4 percent (10 establishments) which are owned by foreigners and one establishment is owned by joint ventures.

Employment and Compensation of Employees:

As mentioned earlier that the industrial sector in Zanzibar is mainly SME, its contribution on employment creation in the country is minimal. The 2012 CIP revealed that the persons engaged⁴ in the industrial sector for the establishment with 10+ persons engaged were 4,280 only of whom 2,921 were male and 1,359 were female. Large share of the employment were on manufacturing sector taking 92 percent of the total and the rest in the mining and quarrying.

Distribution of employment status for mining and quarrying and manufacturing is illustrated in the graphs below. In mining and quarrying, most of persons engaged are working appropriators followed by operative skilled employees. In the manufacturing sector, the operative skilled employees are the majority making 36 percent of total persons engaged in the sector.

⁴These are persons who work in or for the establishment. It includes working proprietors and partners, unpaid workers, managerial and professional staff, operatives and other employees.

Fig 3.2: Employment Status for Manufacturing

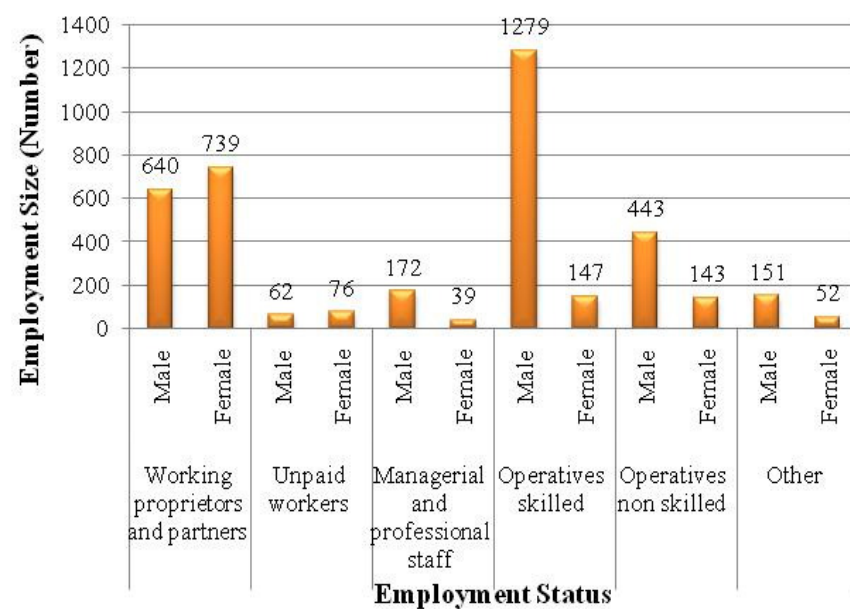

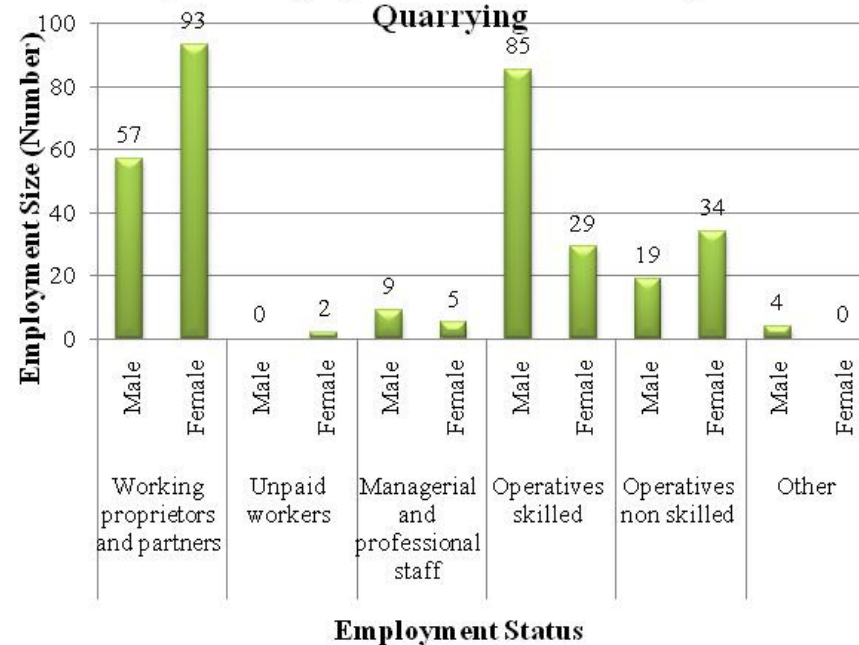

Fig 3.3: Employment Status for Mining and Quarrying

Compensation of Employees:

Compensation of employees plays an important role in giving harmony at work place, and motivates workers to increase production. According to the 2012 Zanzibar CIP results, the compensation of employees paid by industries amounted to about TZS 5,267 million. The amount includes gross wages and salaries, overtime payments in kind, refund for travelling and employees contribution to the ZSSF (10 percent of employers' contribution).

Gross Output:

The gross output of goods and services produced in the industrial sector in 2012 from establishments with 10+ persons engaged was TZS 70,680 million. This is equivalent to 48.6 percent of total gross output produced in the industrial sector for same year which amounted to TZS 145,416 million.

The census results showed that the main consumer of gross outputs produced in the industrial sector is local markets. This contributed to about 94 percent of production. The exported portion of the gross output was 5 percent only.

The intermediate consumption (total cost of production) covers non-durable goods and services used up in production, including repairs and maintenance of the capital stock, research and direct outlays on financing of capital formation such as transfer costs involved in purchases of land and intangible assets. The value of intermediate consumption for the industrial sector in 2012 was TZS 38,661 million equivalents to 98 percent of the cost of the raw materials consumed. Although much of the production (94 percent) was internal consumed, about 38 percent (TZS 14,960 million) of raw material was imported. Services (industrial and non-industrial) consumed TZS 1,900 million, whereby TZS 1,162 million were industrial services. Consumption of utility (electricity, water and fuel) was TZS 3,269 million.

Value added measures the contribution of the industrial sector to GDP. It is obtained by deducing intermediate consumption from the gross output. The 2012 CIP results indicated that the value added generated from the sector was TZS 31,580 million of which TZS 5,268 million paid as compensation of employees; TZS 46.7 million paid as taxes on production (less subsidies) to the government. These results the gross operating surplus (gross profit) of TZS 27,365 million representing 87 percent of the value added.

Operating Ratio: the results from the 2012 CIP revealed that value added to gross output ratio was 45 percent. The ratio for mining sector was 51 percent and for the manufacturing was 44 percent.

The highest ratio in the manufacturing sector was manufacturer of other fabricated metal products; metal working services activities amounted to 90 percent.

The average gross output per establishment was TZS 300.7 million, the average output per person engaged stood at TZS 16.5 million. The corresponding figures for manufacturing and mining and quarrying were TZS 7,046 and TZS 289 million respectively.

3.2.2 Small Establishments with Persons Engaged Less than 10

The 2012 Zanzibar CIP dealt with not only establishments that engaged more than 10 persons, but it also took into consideration the establishments with less than ten persons engaged.

Response rate:

According to Central Register of Establishment (CRE), there were about 2,142 small establishments that engaged in industrial activities (mining and quarrying, and manufacturing). During the enumeration it was found that 166 establishment were either no longer engaged in industrial activities or were closed. The response rate for the small establishment in the 2012 Zanzibar CIP was 99.5 percent, of which total of 1,976 questionnaires were distributed but only 1,966 questionnaires returned despite efforts for follow-up made by enumerators.

Establishments that operated in Zanzibar in 2012 with less than ten persons engages were 1,966, whereby 30 of them equivalent to 1.5 percent were in mining and quarrying and 1,936 about 98.5 percent were in manufacturing.

Ownership:

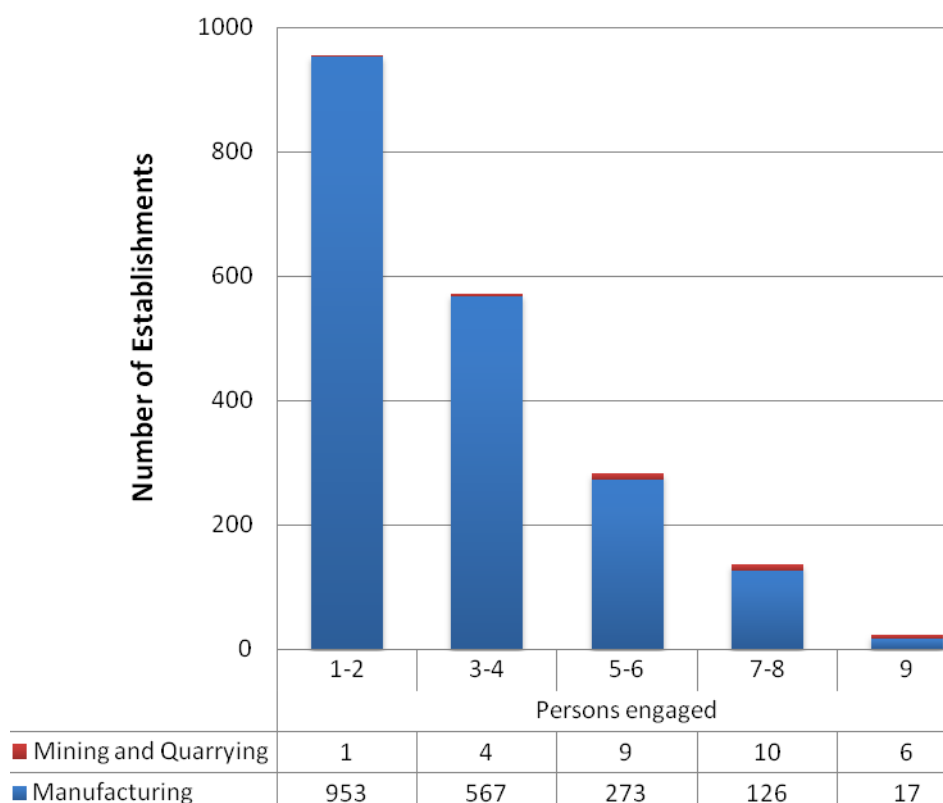

The analysis of 2012 Zanzibar CIP for the establishments with persons engaged less than 10 showed that there were 1,751 establishment equivalents to 89 percent owned by individuals, followed by those owned by the cooperatives accounting to 8 percent. For the mining and quarrying there were only two owners, individual proprietorship (53 percent) and cooperatives (47 percent). There were only one company, manufacture of other transport equipment, which had private ownership.

Persons Engaged:

The results from 2012 CIP revealed that for the establishments with less than ten persons engaged, number of establishment decreases as the number of persons engaged increased. The decrease rates were 40 percent from establishments with 1-2 to 3-4 persons engaged; 51 percent from the

establishments with 3-4 to 5-6 persons engaged; 52 percent from the establishments with 5-6 to 7-8 persons engaged and 83 percent from the establishments with 7-8 to 9 persons engaged. Number of establishments by persons engaged is illustrated in the figure below.

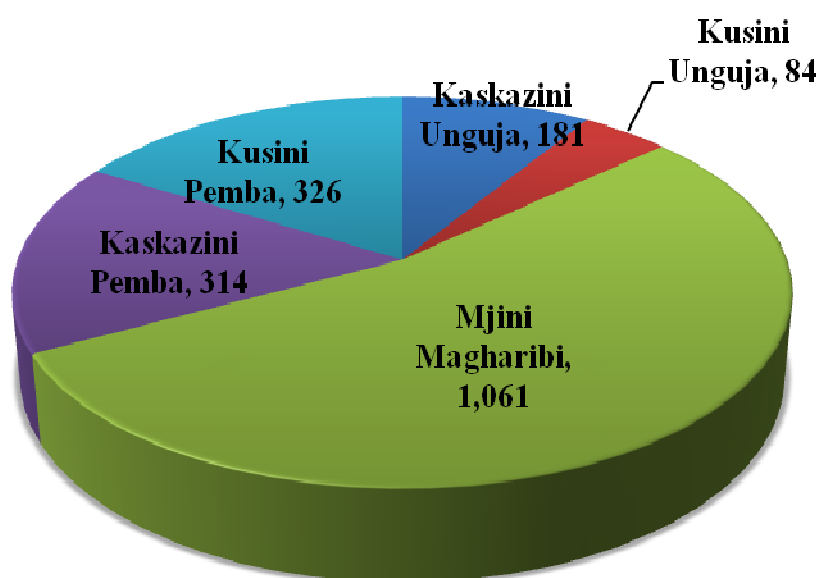

Fig 3.4: Number of Establishments by Persons Engaged, Zanzibar 2012

Regional Distribution of the Establishments

Regional distribution of small scale industrial establishments is not different from the large scale with more than 10 persons engaged. The highest concentration is in Mjini Magharibi and the lowest is Kusini Unguja region. The mining and quarrying establishment can be found in Pemba regions only.

**Fig 3.5: Number of Establishments by Region,
Zanzibar 2012**

Nationality of Owners of Establishments

The distribution of nationality of the owners of establishments resembles that of the large scale industries. The results from the 2012 CIP revealed that most of the industries, about 99.7 percent (1,961 establishments) that were owned by Nationals compared to 0.2 percent (4 establishments) which are owned by foreigners and one establishment contributing 0.1 percent was owned by joint ventures.

Employment and Compensation of Employees

As mentioned earlier that the industrial sector in Zanzibar is mainly SME, its contribution on employment creation in the country is minimal. The 2012 CIP revealed that the persons engaged in the industrial sector for small establishments were 6,147 of whom 5,983 were male and 437 were female. Large share of the employment were on manufacturing sector taking 98 percent of the total and the rest in the mining and quarrying.

Compensation of Employees

Compensation of employees plays an important role in giving harmony at work place, and motivates workers to increase production. According to the 2012 Zanzibar CIP results, the compensation of employees paid amounted to about TZS 5,040 million. The amount includes gross wages and salaries, overtime payments in kind, refund for travelling and employees contribution to the ZSSF (10 percent of employers' contribution).

Gross Output

The gross output of goods and services produced in the industrial sector in 2012 from establishments with less than 10 persons engaged was TZS 74,736 million.

The intermediate consumption (total cost of production) covers non-durable goods and services used up in production, including repairs and maintenance of the capital stock, research and direct outlays on financing of capital formation such as transfer costs involved in purchases of land and intangible assets. The value of intermediate consumption for the for establishments with less than 10 persons engaged in 2012 was TZS 34,357 million.

Value added measures the contribution of the industrial sector to GDP. It is obtained by deducing intermediate consumption from the gross output. The 2012 CIP results indicated that the value added generated from the sector was TZS 40,380 million of which TZS 5,040 million paid as compensation of employees; TZS 101 million paid as taxes on production (less subsidies) to the government. These results the gross operating surplus (gross profit) of TZS 35,239 million.

Operating Ratio: the results from the 2012 CIP revealed that value added to gross output ratio was 54 percent for small establishments. The ratio for mining sector was 79 percent and for the manufacturing was 54 percent. The highest ratio in the manufacturing sector was manufacturer of manufacturing of chemical and chemical products amounted to 89 percent.

The average gross output per establishment was TZS 38 million, the average output per person engaged stood at TZS 12 million. The corresponding figures for manufacturing and mining and quarrying were TZS 38.5 and TZS 12.5 million respectively.

CPC Codes	Descriptions	Imported Value	Local Value	Total
15110	Slate	-	8,200	8,200
15120	Marble and other calcareous monumental or building stone	124,800	396,690	521,490
15130	Granite, sandstone and other monumental or building stone	-	2,760,502	2,760,502
15200	Gypsum; anhydrite; limestone flux; limestone and other calcareous stone, of a kind used for the manufacture of lime or c	-	119,444	119,444
15320	Pebbles, gravel, broken or crushed stone, macadam; granules, chippings and powder of stone	-	25,200	25,200
16200	Salt and pure sodium chloride; sea water	-	7,236	7,236
21496	Fruit and nuts, provisionally preserved, not for immediate consumption	-	118	118
21546	Coconut oil, refined	-	21,197	21,197
21549	Other vegetable oils, refined, n.e.c.	-	105,032	105,032
21710	Oil-cake and other solid residues, of vegetable fats or oils	-	64,862	64,862
23110	Wheat and meslin flour	-	7,738,556	7,738,556
23120	Other cereal flours	158,744,384	10,635,554	169,379,937
23161	Rice, semi- or wholly milled	-	134,400	134,400
23912	Coffee substitutes containing coffee; extracts, essences and concentrates of coffee, and preparations with a basis there	-	145,500	145,500
23926	Cloves (whole stems), processed	-	1,328,238	1,328,238
23996	Yeasts (active or inactive); other single-cell micro-organisms, dead; prepared baking powders	-	70,580	70,580
26140	Noils of wool or of fine animal hair	-	4,000	4,000
26350	Cotton sewing thread	-	18,602	18,602
26630	Woven fabrics of cotton, containing less than 85% by weight of cotton, mixed mainly or solely with man-made fibres	-	20,056	20,056
27150	Sacks and bags, of a kind used for the packing of goods	3,450,698	960	3,451,658
27310	Twine, cordage, rope and cables	-	21,700	21,700
27320	Knotted netting of twine, cordage or rope; made up nets of textile materials; articles of yarn, strip, twine, cordage, r	-	13,360	13,360
28228	Track suits, ski suits, swimwear and other garments, knitted or crocheted n.e.c.	-	4,800	4,800
28232	Men's or boys' shirts, singlet, underpants, pyjamas, dressing gowns and similar articles, of textile fabric, not knitted	-	564	564
28238	Handkerchiefs, shawls, scarves, veils, ties, cravats, gloves and other made-up clothing accessories, of textile fabric,	32,200	150,630	182,830
29120	Other leather, of bovine or equine animals, without hair on	-	1,080	1,080
31310	Wood in the rough, treated with paint, stains, creosote or other preservatives	-	2,031,762	2,031,762
31330	Other wood in the rough (including split poles and pickets)	-	225,690	225,690

CPC Codes	Descriptions	Imported Value	Local Value	Total
32129	Other uncoated paper and paperboard, of a kind used for writing, printing or other graphic purposes, and punch card stock	-	530,000	530,000
32153	Cartons, boxes, cases, record sleeves and other packing containers (except bags) of paper, paperboard, cellulose wadding	-	7,013	7,013
34140	Carboxylic acids and their anhydrides, halides, peroxides and peroxyacids and their halogenated, sulphonated, nitrated or	-	3,727	3,727
34210	Hydrogen, nitrogen, oxygen, carbon dioxide and rare gases; inorganic oxygen compounds of non-metals n.e.c.	-	65,042	65,042
34510	Wood charcoal	-	14,400	14,400
35240	Sugars, chemically pure n.e.c.; sugar ethers and sugar esters and their salts n.e.c.	-	108,320	108,320
35333	Polishes and creams, for footwear, furniture, floors, coachwork, glass or metal	-	30,600	30,600
35420	Glues and gelatine, peptones and their derivatives, and related products; caseinates and other casein derivatives; album	-	23,261	23,261
36320	Tubes, pipes and hoses, and fittings therefore, of plastics	-	33,151	33,151
36390	Other plates, sheets, film, foil and strip, of plastics	-	82,572	82,572
37114	Glass in sheets, bent, edge-worked, engraved, drilled, enamelled or otherwise worked, but not framed, etc.	-	17,225	17,225
37116	Glass mirrors; multiple walled insulating units of glass	-	13,000	13,000
37191	Bottles, jars, phials and other containers, of glass, of a kind used for the conveyance or packing of goods, except ampoules	-	34,750	34,750
37440	Portland cement, aluminous cement, slag cement and similar hydraulic cements, except in the form of clinkers	-	2,660,462	2,660,462
37690	Other worked monumental or building stone and articles thereof; other artificially coloured granules, chippings and powder	-	1,829	1,829
38210	Pearls, natural or cultured and unworked	-	14	14
38240	Jewellery and other articles of precious metal or of metal clad with precious metal; articles of natural or cultured pearls	-	5,306	5,306
39310	Slag, dross, scaling and other waste from the manufacture of iron or steel	-	36,760	36,760
41261	Bars and rods, cold-formed, cold-finished or further worked, of iron or non-alloy steel	-	77,520	77,520
41532	Bars, rods and profiles, of aluminium	-	1,960	1,960
41534	Plates, sheets and strip, of aluminium, of a thickness exceeding 0.2 mm	-	69,976	69,976
42913	Knives (except for machines) and scissors, and blades therefore	-	636	636
42915	Other articles of cutlery; manicure or pedicure sets and instruments	-	12	12
42944	Nails, tacks, staples (except staples in strips), screws, bolts, nuts, screw hooks, rivets, cotters, cotter-pins, washer	-	46,422	46,422
42950	Wire, rods, tubes, plates, electrodes and similar products, of base metal or of metal carbides, coated or cored with flu	-	7,848	7,848

CPC Codes	Descriptions	Imported Value	Local Value	Total
42992	Padlocks and locks, of base metal; clasps and frames with clasps, incorporating locks, of base metal; keys and parts the	-	33,216	33,216
42995	Fittings for loose-leaf binders or files; letter clips, letter corners, paper clips, indexing tags and similar office ar	2,900	16,790	19,690
42997	Sewing needles, knitting needles, bodkins, crochet hooks, embroidery stiletos and similar articles, for use in the hand	-	111	111
43931	Fans, except domestic type; centrifuges, except cream separators and clothes dryers	-	2	2
44112	Harrows, scarifies, cultivators, welders and hoes	-	22,231	22,231
44222	Machine-tools for working wood, cork, bone, hard rubber, hard plastics or similar hard materials; presses for the manufacturing	-	1,500	1,500
47610	Musical audio disks, tapes or other physical media	-	213,466	213,466
53262	Power plants	-	16,800	16,800
88140	Vegetable and animal oil and fat manufacturing services	-	10,820	10,820
88190	Tobacco manufacturing services	-	20,000	20,000
88426	Soap, detergents, cleaning preparation and perfume manufacturing services	-	10	10
88774	Mining, quarrying and construction machinery manufacturing services	-	303,120	303,120
99998	Other	55,435	2,804,535	2,859,969

Table 34a: Sales of Goods by Product Category and Origin, 2012 Value (Tshs'000')

CPC CODES	Description	Local Sold Value	Exported Value	Total
	Missing	322,330	-	322,330
15320	Pebbles, gravel, broken or crushed stone, macadam; granules, chippings and powder of stone	10,800	-	10,800
16200	Salt and pure sodium chloride; sea water	170,560	4,200	174,760
21546	Coconut oil, refined	66,000	-	66,000
21549	Other vegetable oils, refined, n.e.c.	53,850	-	53,850
22249	Butter and other fats and oils derived from other milk	2,970	-	2,970
22270	Ice cream and other edible ice	21,600	-	21,600
23110	Wheat and muslin flour	22,815	-	22,815
23410	Crisp bread; risks, toasted bread and similar toasted products	115,832	-	115,832
23420	Gingerbread and the like; sweet biscuits; waffles and wafers	38,160	-	38,160
23490	Bread and other bakers' wares	6,336,604	-	6,336,604
23670	Sugar confectionery (including white chocolate), not containing cocoa; vegetables, fruit, nuts, fruit-peel and other par	-	37,368	37,368
23710	Uncooked pasta, not stuffed or otherwise prepared	740,316	-	740,316
24410	Bottled waters, not sweetened or flavoured	182,942	-	182,942
27130	Curtains (including drapes) and interior blinds; curtain or bed valances	57,190	-	57,190
27180	Quilts, eiderdowns, cushions, pouffes, pillows, sleeping bags and the like, fitted with springs or stuffed or internally	22,070	-	22,070
27290	Other carpets and textile floor coverings (including those of felt)	42,963	-	42,963
27310	Twine, cordage, rope and cables	26,100	-	26,100
27320	Knotted netting of twine, cordage or rope; made up nets of textile materials; articles of yarn, strip, twine, cordage, r	24,800	-	24,800
28221	Men's or boys' suits, coats, jackets, trousers, shorts and the like, knitted or crocheted	1,116,509	10,375	1,126,884
28222	Men's or boys' shirts, underpants, pyjamas, dressing gowns and similar articles, knitted or crocheted	35,360	-	35,360
28223	Women's or girls' suits, coats, jackets, dresses, skirts, trousers, shorts and the like, knitted or crocheted	2,947,626	29,352	2,976,978
28224	Women's or girls' blouses, shirts, petticoats, panties, nightdresses, dressing gowns and similar articles, knitted or cr	373,808	-	373,808
28225	T-shirts, singlets and other vests, knitted or crocheted	3,600	-	3,600
28231	Men's or boys' suits, coats, jackets, trousers, shorts and the like, of textile fabric, not knitted or crocheted	3,600	-	3,600
28238	Handkerchiefs, shawls, scarves, veils, ties, cravats, gloves and other made-up clothing accessories, of textile fabric,	35,640	-	35,640
29290	Other articles of leather or composition leather (including articles of a kind used in machinery or mechanical appliance	20,000	-	20,000
29330	Footwear with uppers of leather, other than sports footwear, footwear incorporating a protective metal toe-cap and miscue	102,950	-	102,950
31100	Wood, sawn or chipped lengthwise, sliced or peeled, of a thickness exceeding 6 mm; railway or tramway sleepers (cross-ti	596,388	25,920	622,308
31310	Wood in the rough, treated with paint, stains, creosote or other preservatives	61,277	-	61,277
31330	Other wood in the rough (including split poles and pickets)	2,400	-	2,400
32129	Other uncoated paper and paperboard, of a kind used for writing, printing or other graphic purposes, and punch card stoc	17,135	-	17,135

35140	Writing or drawing ink and other inks	9,050	-	9,050
35321	Soap; organic surface-active products and preparations for use as soap; paper, wadding, felt and nonwovens, impregnated,	12,884	-	12,884
37114	Glass in sheets, bent, edge-worked, engraved, drilled, enamelled or otherwise worked, but not framed, etc.	2,300	-	2,300
37116	Glass mirrors; multiple walled insulating units of glass	46,320	-	46,320
37440	Portland cement, aluminous cement, slag cement and similar hydraulic cements, except in the form of clinkers	209,925	-	209,925
37520	Boards, blocks and similar articles of vegetable fibre, straw or wood waste agglomerated with mineral binders	13,455,434	-	13,455,434
37560	Other articles of cement, concrete or artificial stone	1,247,708	-	1,247,708
38112	Seats, primarily with wooden frames	180,008	-	180,008
38119	Other seats	133,900	-	133,900
38121	Other metal furniture, of a kind used in offices	2,855	-	2,855
38122	Other wooden furniture, of a kind used in offices	162,403	600	163,003
38130	Other wooden furniture, of a kind used in the kitchen	4,884	-	4,884
38140	Other furniture n.e.c	31,753,672	151,075	31,904,747
38150	Mattress supports; mattresses, fitted with springs or stuffed or internally fitted with any material or of cellular rub	28,440	-	28,440
38210	Pearls, natural or cultured and unworked	2,400	-	2,400
38240	Jewellery and other articles of precious metal or of metal clad with precious metal; articles of natural or cultured pea	1,712,377	-	1,712,377
38410	Snow-skis and other snow-ski equipment; ice-skates and roller-skates	17,250	-	17,250
39360	39360	-	90	90
42120	Doors, windows and their frames and thresholds for doors, of iron, steel or aluminium	55,000	-	55,000
42912	Table, kitchen or other household articles and parts thereof, of iron, steel, copper or aluminium; cooking or heating ap	164,405	14,400	178,805
42922	Interchangeable tools for hand tools or for machine tools, including dies for drawing or extruding metal, and rock drill	3,740	-	3,740
42931	Tanks, casks, drums, cans, boxes and similar containers (other than for compressed or liquefied gas) of iron, steel or a	137,282	-	137,282
42942	Stranded wire, cables, plaited bands and the like, of copper or aluminium, not electrically insulated	345,600	-	345,600
42943	Cloth, grill, netting and fencing, of iron or steel wire; expanded metal of iron or steel	7,600,071	131,606	7,731,677
42944	Nails, tacks, staples (except staples in strips), screws, bolts, nuts, screw hooks, rivets, cotters, cotter-pins, washer	73,666	-	73,666
42945	Springs and leaves for springs, of iron or steel	31,200	-	31,200
42993	Armoured or reinforced safes, strong-boxes and doors and safe deposit lockers for strong-rooms, cash or deed boxes and t	12,840	-	12,840
42995	Fittings for loose-leaf binders or files; letter clips, letter corners, paper clips, indexing tags and similar office ar	15,000	-	15,000
42997	Sewing needles, knitting needles, bodkins, crochet hooks, embroidery stilettos and similar articles, for use in the hand	12,672	-	12,672
43530	Fork-lift trucks; other works trucks whether or not fitted with lifting or handling equipment; tractors of the type used	161,795	-	161,795
43931	Fans, except domestic type; centrifuges, except cream separators and clothes dryers	3,600	-	3,600
43943	Parts for the goods of subclasses 43922, 43923 and 43933; weighing machine weights; parts of agricultural or horticulture	4,840	-	4,840

44112	Harrows, scarifies, cultivators, welders and hoes	340,604	-	340,604
44222	Machine-tools for working wood, cork, bone, hard rubber, hard plastics or similar hard materials; presses for the manufa	79,200	-	79,200
44513	Machinery used in the milling industry or for the working of cereals or dried leguminous vegetables other than farm-type	666,075	14,400	680,475
49410	Sailboats (except inflatable), with or without auxiliary motor	164,800	-	164,800
87110	Maintenance and repair services of fabricated metal products, except machinery and equipment	4,380	240	4,620
87220	Repair services of watches, clocks and jewellery	1,500	-	1,500
88140	Vegetable and animal oil and fat manufacturing services	17,760	-	17,760
88426	Soap, detergents, cleaning preparation and perfume manufacturing services	1,440	-	1,440
88774	Mining, quarrying and construction machinery manufacturing services	979,400	-	979,400
89121	Printing services	344,546	-	344,546
99998	Other	744,743	1,050	745,793
99999	Total	74,522,162	420,676	74,942,839

Tables 38: Major Challenges Facing Industries in Zanzibar, 2012

Challenges	No of Response rate	Percent of Response rate
Insufficient demand	1,237	21.0
Shortage of raw materials	574	10.1
High taxes	392	6.9
Insufficient production capacity	373	6.5
Shortage of qualified labour	93	1.6
Lack of equipment	266	4.7
Transport problems	151	2.6
Insufficient production area	199	3.5
Inadequate supply of electricity	462	8.1
Economic environment	100	1.8
High cost of production	182	3.2
Financial problems	907	15.9
Foreign Currency	23	0.4
Inflation	133	2.3
Depreciation of currency	80	1.4
Illegal import	32	0.6
Inadequate water supply	11	0.2
Lack feasibility study	28	0.5
Others	468	8.2
Total	5,711	100.0

CHAPTER FIVE

Recommendation and Way Forward

The government:

The 2012 Census of Industrial Production, shows that majority of the industries are small in size hence fail to compete in the Regional market and International market. There exist unexploited manufacturing sector opportunities especially on food and food stuff processing, carpentry and tailoring. The recommended areas are supported with availability of raw material and skills.

OCGS need to have the support of various Industries and other association before the launching of the census should be emphasized.

This may be facilitated through publicity workshops so as to sensitize the industrial entrepreneurs on the importance of statistical data for planning policy decision making etc.

The Government is encouraged to support and protect new Industries with modern production technologies.

- Improve manufacturing industries production capacity
- Promote and support expansion of products manufacturing processes.
- Encourage utilization of female workers in the industrial sector.

Support implementation of industrial sector specific policies to enhance optimal use of industrial services at minimum cost.

Though SME policy has emphasized both the promotion of export oriented industries as well as the small scale industries at the same time supporting industries that are ancillary to the basic industries, this have not been implemented so Government need to implement this.
